

Department of Computer and Information Science
Faculty Evaluation of Senior Project Presentation
Term: Spring 2017

Student _____

Project _____

Faculty Evaluator _____

Check at most three of the following areas in which the problem addressed by the student was similar in scope to one that might be given to a new computer scientist entering industry or graduate school.

- | | |
|---------------------------------------|------------------------------------------|
| _____ a. integration of systems | _____ g. database programming |
| _____ b. theoretical considerations | _____ h. networking programming |
| _____ c. programming details | _____ i. user interface programming |
| _____ d. relationships among data | _____ j. distributed systems programming |
| _____ e. large data sets | |
| _____ f. algorithmic programming | |
| _____ k. other (please specify) _____ | |

Please rate the quality of the student's project by rating your agreement with the following statement:

The solution provided by the student satisfactorily addresses the areas of complexity, as chosen above, on a level that would be expected of a new computer scientist entering industry or graduate school.

Express your agreement by checking one of the following:

- _____ a. Strongly Disagree
- _____ b. Disagree
- _____ c. Agree
- _____ d. Strongly Agree

Please rate the student with regard to the statements listed below by circling the word or phrase which you think best represents the student's performance. Abbreviations of the words or phrases have the following meanings:

- SD Strongly Disagree
- D Disagree
- A Agree
- SA Strongly Agree

The student presented a professional appearance.	SD	D	A	SA
The student presented a professional bearing.	SD	D	A	SA
The student organized a logical and effective presentation.	SD	D	A	SA
The student used audiovisual aids appropriately.	SD	D	A	SA
The student spoke clearly and audibly.	SD	D	A	SA
The student used correct grammar and pronunciation.	SD	D	A	SA
The student used appropriate computing concepts.	SD	D	A	SA
The student used appropriate computing terminology.	SD	D	A	SA
The student explained the topic effectively.	SD	D	A	SA
The student provided helpful responses to questions.	SD	D	A	SA
