

Engr 664-01: Theory of Concurrent Programming

Assignment #4, Fall 2016

H. Conrad Cunningham

21 October 2016

Assignment #4

Due Tuesday, 1 November, 11:59 p.m.

Instructions

Do **one** of the following:

- Do exercise 6.2 on page 121 of the textbook. Do the modeling work and also write a program to implement the algorithm. (If you want to use some language other than Java, discuss it with the instructor.)
- Do exercise 7.7 and 7.8 on page 158 of the textbook. That is, do both the modelling work and write a program to implement Peterson's algorithm. (If you want to use some language other than Java, discuss it with the instructor.)

Submit your source code and documentation using BlackBoard.
